CYBOTS

INCIDENT RESPONSE (IR)

FAST | ACCURATE | SIMPLE | THOROUGH

F Our lightweight agent continuously detects, eradicates and remediates issues, drastically reducing your MTTD and MTTR to prevent security incidents from evolving into business-altering events—all provided by the collaboration between our expert analysts, virtual forensic analyst AI, and our attacker behavior modeling technology.

A We provide automated forensic analyses not just across multiple levels of contexts but also into the intricate relationships between each of those levels of context.

S Receive regular in-depth reports on the current state of your entire network. Cybots AMDR Services Team is available to walk you through your fully-actionable reports step by step, explaining each step simply and clearly.

T We rescan and confirm eradication with cyber threat intel from multiple major proprietary sources and organizations across the globe, as well as the rigorous AI-driven vetting process of our Cyber Threat Intelligence.

INCIDENT RESPONSE & FAST FORENSIC [IR]

Is your network air-gapped or segmented? We can handle it.
We can run our IR & Fast Forensic Services on-site and assure your data privacy with zero data leakage.

Our Incident Response (IR) & Fast Forensic Services team will walk you step-by-step through a fully actionable report within 1 day of our scanner runs. We have assisted dozens of international organizations in investigating critical security incidents, conducting thorough digital forensic analyses and accelerating maturity in long-term security solutions.

Our Approach - Step 1 and Final step

THE CYBOTS DIFFERENCE

Cybots Incident Response [IR]

When a breach occurs, respond with our fast forensics.

- Reduce your mean-time-to-detect (MTTD) and mean-time-to-respond (MTTR) to ensure you get out of the threat and limit the damage to your system and data
- Cybots provides you with an immediate detailed analysis of your cyber situation
- Cybots team works with you to contain threats, minimize impact and get your business back to normal ASAP
- Benefits of "AI" which is thorough and not prone to fatigue
- Increased compliance

Product Features	IR
Scanning every endpoint, process, file	Yes
IAM (Identity Access Management) across entire network	Yes
Automated investigations triggered upon detection of a high severity alert (level 7 – 10)	Yes
Delivers full site-wide forensic analysis by AI	Yes
Additional analysis by human security analysts	Yes
Link Each step of the attack	Yes
Provide full context for each step of the attack	Yes
Report inform which processes to stop	Yes
Identify files to delete	Yes
Identify Malware to remove	Yes
List of infected user accounts	Yes
List of URLs, IP addresses, domains to block	Yes
Threat Hunting Alerts	
Detection time for cyber threat	NA
Cyber Situation Reports*	
Auto Generated Actionable Report	Yes
Generation time for Cyber Situation Report	3 days*
Full storylines of any & all malicious activity	Yes
Malicious domain, IP, URL analysis	Yes
Malware analysis	Yes
Graphs of all affected nodes and executions	Yes
A step-by-step plan for eradication & more	Yes
Eradication confirmation	Yes
Root cause analysis	Yes
Global Cyber Threat Intelligence	NA
MITRE ATT&CK mapping	Yes
Analyst Recommendation & Interpretation on report	Explanation provided
Sample Report	**Proactive Intelligence Report** **Cyber Situation Report**

*action report only available when cyber situation arises
